WINDOOR  
INCORPORATED

To Whom It May Concern,

As one of the two principals of WinDoor, Inc., and Vice President /General Manager, I would like to personally recommend Tom Senevey and his company Complete Aluminum & Screen, Inc.

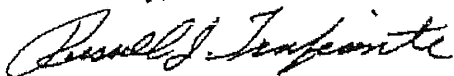

They have been a long time, large volume customer of WinDoor and our relationship is solid. Their experience and quality installations are evident when our field quality assurance technicians perform our job site inspections.

We at WinDoor constantly strive to be the best. We can only do this by associating with quality installing dealers. Tom and his company have certainly risen to the top of our list.

I am certain that Complete Aluminum & Screen will continue to do quality work on future projects because it is about business integrity. He and I share the same views when it comes to quality, performance, value, and integrity.

I can be reached in my office at 407-481-8400 for additional verification in regards to this recommendation if necessary.

Sincerely,

Russell J. Traficante  
Vice President/General Manager
