To whom it may concern

I have worked with Complete Aluminum for more then 15 years and have been involved with over 100 jobs ranging from 15,000 to 1,000,000 dollars and have always been impressed with there ability to solve problems and complete the projects they have set out to do. They have a open mind and the ability to help in the design build operations of todays repair market.

Sincerely

Larry West
