To Whom It May Concern:

I have had the pleasure of working with Complete General Contracting on two occasions.

Most recently they have completed a large building restoration project at The Casa Blanca on Midnight Pass Road. There were several aspects of the project including major concrete restoration, aluminum screen enclosures, waterproofing concrete balcony decks, and painting. The foreman and crew assigned to the job were professional, polite, neat, and hard-working. When issues or concerns were raised they were dealt with in a timely manner. The office staff was extremely responsive to questions and concerns and communicated in a timely manner.

I also worked with Complete on a much smaller project at Golden Bay about 4 years ago. It was a water intrusion issue which was difficult to diagnose. Josh Senevey did some investigation and devised a method of drizzling a filler material into a relatively small crack hidden behind a decorative band and railing on the front of the building. To date the association has not had any further problem with water intrusion in that area.

I would recommend Complete General Contracting and would look forward to the opportunity to work with them again. If you have any questions, please do not hesitate to contact me at 941-921-5393 x144 or [eangeloro@pcmfla.com](mailto:eangeloro@pcmfla.com)

Sincerely,

  
Elise Angeloro, CAM
